

PROTECTING

..... *our children*

WE INVITE
you

to a special event at **115 BOURBON STREET** on
December 3rd at 7:00 PM to hear **Alex Newman!**

Newman is one of the nation's premier investigative reporters, contributing editor, and foreign correspondent for *The New American* magazine.

NEWMAN warns parents that if they hope to protect their children against intellectual dumbing down as well as the rampant cultural-moral-spiritual subversion, then sending them to public schools is no longer an option. **“Right now,”** he says, **“the government schools are systematically indoctrinating and dumbing down children, turning them against their parents, against their families, against their churches, against our country, against the founding fathers of our country, against our Constitution and our freedoms, and our Republic will not survive too far into the future if we allow this to continue.”**

The New American magazine released a special report earlier this year exposing the existential crisis posed to freedom by a government education system based on the humanist/Marxist worldview. His conclusion? **“We recognize that calling for a mass exodus of children from government schools is still considered a radical proposal by some. But as we show clearly in this Special Report, it is time for radical solutions to this existential crisis. Our country, our churches, our freedoms, and our families are all on the line. We must take urgent action—now.”**
